

Movie & Munch

[Movie and Munch](#) is a unique film and dining experience conceived by [Eliza Brady](#) and Max Sargent. We craft a carefully curated menu inspired by the themes and concept of the film being shown, offering audience members an immersive, multi-sensory experience that blends cinematic storytelling with culinary artistry. Our past film selections encompass a diverse array of themes, characterized by rich Technicolor palettes and distinctive works from the realm of alternative and arthouse cinema.

We have been hosting Movie and Munch events at [Cave](#) in Pimlico since 2023, an independent community arts hub. We have a long standing relationship with the space and its community which is why we wanted to begin the Movie & Munch journey there. Now, we are excited to expand our event and bring this unique experience to a wider audience.
